Pre-op Medication Instructions for Operative Hysteroscopy

Patient: _____

Reminder: Please have your Vicodin prescription (from our office) filled prior to the evening before your procedure.

Night before:

Motrin® 800mg (or 4 pills of Advil® 200mg four times per day)
Start 48 hours before the procedure and continue through 48 hours after

Morning of procedure:

Motrin® 800mg
You may eat a *light* meal.

Before procedure: Please take the following at: _____

Phenergan 25mg
Xanax 2mg
(Phenergan and the Xanax given to you at the office)
Vicodin, 2 tablets

Come to the office at _____ to get shot of Toradol. Once that takes effect, you will receive a local anesthetic (numbing agent) with a Novacaine-like medication.

After your procedure, continue the Motrin® as indicated above. We recommend using Tylenol® or Vicodin for pain.

If you have any questions, please feel free to ask!
